

List of Figures

1.5.1.Box plots of Burns Creek water quality parameters related to total dissolved solids.	14
1.5.2.Relationships between calcium (left) and chloride (right) on TDS at sampling locations along Burns Creek.	16
1.5.3.Relationships between magnesium (left) and sodium (right) on TDS at sampling locations in Burns Creek.	16
1.5.4.Relationships between conductivity (left) and sulfate (right) on TDS at sampling locations in Burns Creek.	17
1.5.5.Box plots of Jerritt Canyon Creek water quality parameters related to total dissolved solids.	18
1.5.6.Relationships between calcium (left) and chloride (right) on TDS at sampling locations along Jerritt Canyon Creek.	19
1.5.7.Relationships between magnesium (left) and sodium (right) on TDS at sampling locations in Jerritt Canyon Creek.	20
1.5.8.Relationships between conductivity (left) and sulfate (right) on TDS at sampling locations in Jerritt Canyon Creek.	20
1.5.9.Box plots of Snow Canyon Creek water quality parameters related to total dissolved solids.	22
1.5.10.Relationships between calcium (left) and chloride (right) on TDS at sampling locations along Snowt Canyon Creek.	23
1.5.11.Relationships between magnesium (left) and sodium (right) on TDS at sampling locations along Snowt Canyon Creek.	24
1.5.12.Relationships between conductivity (left) and sulfate (right) on TDS at sampling locations along Snowt Canyon Creek.	24
1.5.13.Box plots of Snow Canyon Creek water quality parameters related to total dissolved solids.	25
