INDIA LIVELIHOODS WEBINAR

Working for an inclusive society in the present new reality.

Third Webinar Session - Visually Impaired

Wednesday, September 9th, 3:00 pm

About Webinar

The world is presently facing an unprecedented health emergency resulting from Covid 19 pandemic which has also had its adverse effect on economic lives of the people. It is estimated that in India alone around 110 Million People have become unemployed in the last couple of months., In the present 'New Reality' we know that it is the marginalized communities that will bear the brunt of this effect and among them, persons with disability (PWD) will be the most disadvantaged as their issues are much more complex thereby making it difficult for them to adapt to the altered way of life. Therefore, there is an urgency to collectively address this issue by identifying foreseeable problems and working with all the stakeholders to find new ways to address the emerging challenges.
