**Prof. Dr. M. G. Grütter**

### **Open PostDoctoral and Technician Positions**

Applications are invited for four positions at various levels at the University of Zürich (Switzerland). Currently there are four vacant positions at the postdoctoral and research assistant levels (2 Post-Docs and 2 research assistants) in the lab of Prof. Markus Grütter in the Department of Biochemistry. We are focussing on the investigation of the structure/function relationship of proteins involved in apoptosis, innate immunity and trans-membrane signalling (PNAS (2008) 105:20251, Structure (2008) 16:1443, Structure (2007) 15:625, PLoS Biol (2007) 5:e7).

We seek enthusiastic team players with experience in at least one of the following disciplines: protein X-ray crystallography, protein expression and purification, and eukaryotic expression systems. Experiences in membrane protein biochemistry will be an advantage. Good knowledge of English is mandatory. Candidates applying for the Post-Doc position should hold a PhD in a life science-related subject. All positions are time limited for three years. Salary will be according to the regulations of the Swiss National Science Foundation scheme.

Please submit your electronic application including a CV, a list of publications (for the Post-Doc positions) and the names of two to three referees to Mrs. Salome Rittmeyer at the following address: [secgruetter@bioc.uzh.ch](mailto:secgruetter@bioc.uzh.ch)

We offer a stimulating and cooperative working environment at an internationally renowned institution. Further information about the Department of Biochemistry and the University of Zürich are available under:
