

1. Tests table align

Table 1. This table does not make use of the `@align` attribute: text is indeed aligned to the left

1,1	1,2
2,1	2,2

Table 2. This table makes use of the `@align` attribute in a `colspec` (where `@align=center`) for the first column and in the entry elements of the second column

1,1	1,2 (@align=center)
2,1	2,2 (@align=right)
