### BUY / SELL FOR 250+ SHARES TRADED IN FUTURES MARKET

When Nifty trades at peak of the day, look out for shares which trade below sell level and above T1....! When Nifty start coming down from the peak short these share. Similarly when Nifty is at the bottom of the day, look out for shares which trade just above the buy level and below T1. Go long in them when Nifty starts moving up.. Don't enter in between the buy and sell level. Leave the first 1/2 to 1 hour depending upon market condition.
