I am trying to achieve this indentation but with paragraph number before the paragraph. As you can see, the indentation of this line is justified correctly.This is some very long content to a very simple paragraph that will be repeated again and again.

 (a) This sub-paragraph will be left-aligned based on the tab space of the first paragraph

 (b) This sub-paragraph will be left-aligned based on the tab space of the first paragraph

1 I am trying to achieve this indentation but with paragraph number before the paragraph. The alignment of the first line doesn't look okay. This is some very long content to a very simple paragraph that will be repeated again and again.

 (a) This sub-paragraph will be left-aligned based on the tab space of the first paragraph

 (b) This sub-paragraph will be left-aligned based on the tab space of the first paragraph
