

Subject: -Introducing the cell phone contact backup system (*ePhoneBook* system)
And the file backup system (*eBoxFile* system)

What it is

ePhoneBook is an easy to use method of **saving and exchanging phone numbers and other contacts** with your friends, workmates or colleagues. It enables you to securely access, upload and organize contacts online without additional software to install.

How it works

Register with us to acquire a username and password. You can import contacts directly from your mobile phone to the server without a hassle and you can do the same if you have an excel file of your contacts that you have typed in the past. Browse and attach the file and it will save the contacts in your account securely. You can send your contacts directly from your phone to your account. You can save all your contacts in one place and can retrieve them when you need them, any time, anywhere. You can share a contact with anyone registered with *ePhoneBook* and all details will automatically be recorded in the other person's account.

What it does

- ✓ Back up all your cell phone contacts
- ✓ Allows you to make calls even when you do not have your personal cell phone with you
- ✓ Synchronize and update the backed up phone contacts while saving/adding only the newly attained contacts without losing the old contacts
- ✓ Save multiple phone contacts for a single person
- ✓ Share your phone contacts with other people

Subscription charges: US\$9 to open an e-phonebook account which guarantees you a back up of 100 phone contacts. An account once opened is renewable annually.

The *eBoxFile* system

What it is

eBoxFile gives you the best and comprehensive tools to flexibly create, manage and share documents online with your friends or workmates. Simply sign up and with just a few simple steps, you will be ready to go. Give it a try today!

How it works

Organize your documents them into folders. Drag and drop your documents into as many folders as you want which you can access as soon as you sign in.

- ✓ Back up all your office and personal files and folders
- ✓ Enables you to access your files and folders even when you do not have your Personal Computer
- ✓ Allows you to possess all application software which enables you to view/read, edit and save the document/file without downloading it beforehand
- ✓ Allows several people in different locations to work on/edit a single file at the same time

- ✓ Gives administration control whereby you can allow sharing a document by activating for example; share, view only, download, edit. You may also guarantee security of files by allocating access password

Subscription charges: US\$10 plus 1GB storage space for 1 year. An extra US\$5 will entitle you to an additional 1GB of storage space.

Subscription charges are paid annually.
