Algorithmus 1 Example Algorithm float

```
for I in 1..N loop
  Sum:= Sum + A(I); /*comment*/
end loop
```

Algorithm 5 is an example of an algorithm float where -4 mm vertical space was added at the end of the float to have the bottom rule exactly below the last text line.

Algorithmus 2 Example Algorithm float

```
for I in 1..N loop
  Sum:= Sum + A(I); /*comment*/
end loop
```

Algorithmus 3 Example Algorithm float

```
for I in 1..N loop
  Sum:= Sum + A(I); /*comment*/
end loop
```

Algorithmus 4 Example Algorithm float

```
for I in 1..N loop
  Sum:= Sum + A(I); /*comment*/
end loop
```

Algorithmus 5 Example Algorithm float

```
for I in 1..N loop
  Sum:= Sum + A(I); /*comment*/
end loop
```
