

Senior Laboratory/Clinical Consultant

InfoPartners, Inc., a well-established, healthcare information systems consulting and management company is recruiting for an experienced professional to join its senior consulting team. Founded in 1986 to serve the needs of community hospitals, InfoPartners offers a full range of management and consulting services to its clients. To learn more about InfoPartners, visit our web site at www.infopart.com.

This senior-level consultant will assist our hospital clients with information systems planning, implementations, and selections.

InfoPartners is considering candidates who are Information Systems professionals with experience in laboratory, blood bank, pathology, reference laboratory, and any other clinical applications. Previous job experiences that are applicable include hospital IS clinical systems analysts or systems vendor implementation specialists. Meditech experience is a plus.

Travel is required, but is manageable, and resources are provided to work out of your home. You will find our InfoPartners consulting team to be very knowledgeable in both systems and workflow/operational issues, working together in a cohesive, supportive, and professional manner.

Please send resume and salary history to InfoPartners, RE: Senior Clinical Systems Consultant.
