

The Virtual Reality Application Center at Iowa State University is hiring!

The Virtual Reality Applications Center (VRAC) has rapidly established itself as a world leader in virtual reality and human computer interaction research. VRAC is home to \$15 million in ongoing contract research, 80 faculty, 200 students, and the first 6-sided CAVE™ in the USA.

VRAC is creating a new Systems Analyst position that will be the primary visualization and virtual reality engineer for the center. The candidate will play a key role in the future development and leadership of VRAC's research facilities. We are seeking an individual with a Bachelor's or Master degree in Computer Science, Computer Engineering, or related IT field with relevant experience.

A competitive salary package will be negotiated with the successful applicant.

For a complete position description, appointment criteria, and to apply on-line, visit the Iowa State University, Human Resources Department and search for vacancy-id 061024 or click the link below.
